

# MANAGEMENT CPC

**RED ROSE TRAINING**

*Working towards a better future*

## INFORMATION SHEET

Anyone wishing to operate freight vehicles over 3.5 tonnes within the UK must hold (or employ a person who holds) the CPC National qualification.

Individuals or companies operating outside the UK must also hold the International qualification.

All Red Rose instructors are highly qualified and have many years of experience. Learning takes place in our modern classrooms which are fully equipped with PowerPoint and video presentation systems.

CPC National and/or International manuals are available for clients who wish to study at home. These may be purchased in advance and the candidate must then register for the examination when he/she feels sufficiently confident.

Red Rose Training is a registered centre and examinations may be taken here or at any approved centre. Results are published within 8 weeks of the examination and the candidate will receive individual notification of their achievements.
