Awarded following assessment visits and monitoring in the work-place over a number of weeks.

#### Requirements:

- Minimum of six months' experience on category of plant
- Operating category of plant on site to be assessed
- Health and safety knowledge
- Witness testimonies completed by employer or supervisor
- On site practical assessment

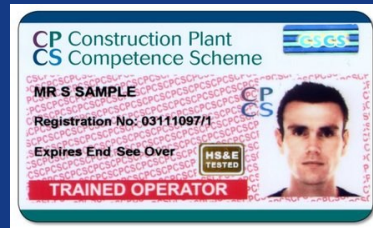

### Option 2—Experienced Worker Practical Assessment—EWPAP

Awarded after a practical test, discussion and verification of experience—Usually completed in one day.

#### Requirements

- Sufficient experience
- Witness testimonies completed by employer or supervisor
- Record of employment
- Record of qualifications, education and formal training
- Practical assessment, timed and working to industry tolerances/ specification required for an operator in the category sector
- Professional discussion

## Plant NVQ's

Gaining the relevant NVQ/SVQ will allow you to progress through the CITB scheme and change from a Red Trained Operator card to a Blue competent Operator card. The Red Trained operator card expires after 2 years, during this time it is expected that you gain 300 hours experience and achieve a plant operations NVQ.

If your Red Card has expired in the last 12 months, you can get an extension once you register for a NVQ .

If your Red Card Expired over 12 months ago, you need to complete both the NVQ and the technical test per category.

Under current CPCS rules; you cannot progress to a blue card without a relevant NVQ.

Option 2 is used to assess very experienced candidates who would prefer to demonstrate their competence using a one-off practical assessment as opposed to observation on site combined with portfolio building.

**£599.00** + VAT plus £90 Registration Fee
